About Our Team

The GEM-led CTA provides high-quality, low-risk technical, engineering, and programmatic services across the DOE and NNSA complexes. Our team was intentionally built to be small, agile, and able to quickly respond to DOE/NNSA needs in a collaborative and efficient manner. This flexibility, combined with our broad range of capabilities and decades of relevant experience, provides confidence to the Government that our team will successfully meet milestones regardless of the complexity or volume of the need.

Our team averages 17 years of experience supporting federal missions relevant to the TEP III BPA scope areas. With experience supporting nearly 50 DOE/NNSA sites, including 5 TEPS-related facilities, our team offers a deep familiarity of DOE sites, processes, and requirements. Our wide span of office locations in 45 states enables quick responsiveness and mobilization at the task order level.

The GEM-led CTA provides low risk due to our proven experience of working together to support federal missions. Our team members have trusted working relationships with DOE/NNSA, their prime contractors, and other agencies while performing numerous contracts together in various capacities, including TEPS II. Our collaborative foundation ensures DOE and NNSA receives efficient and high-quality performance on every task.

Our CTA team covers all Small Business Administration socioeconomic categories, ensuring that DOE/NNSA offices readily meet their small business utilization goals.
